Response to Arguments

Applicant's arguments filed 05/30/2006 have been fully considered but they are not persuasive.

In the remarks, applicant argued in substance that

(A) Prior art only teaches two status states while claims 1 and 15 claim status indication of three states for the soft switches

As to point (A), applicant claimed "one of operable, partially operable, and wholly inoperable"; therefore, two status states taught by prior art read on one of status states as claimed.
